Action Plan Components Explained (NOFO Table 1)

A successful Action Plan includes seven key components, which are described in detail below and in Table 1 of the SS4A Notice of Funding Opportunity.

1. Leadership Commitment and Goal Setting

Leadership commitment and goal setting is an official public commitment (e.g., resolution, policy, ordinance) by a high-ranking official and/or governing body (e.g., mayor, city council, Tribal council, metropolitan planning organization [MPO] policy board) to an eventual goal of zero roadway fatalities and serious injuries.

The commitment must include a goal and timeline for eliminating roadway fatalities and serious injuries achieved through one, or both, of the following:

1. The target date for achieving zero roadway fatalities and serious injuries, or
2. A percentage reduction of roadway fatalities and serious injuries by a specific date with an eventual goal of eliminating roadway fatalities and serious injuries.

2. Planning Structure

A **planning structure** is a committee, task force, implementation group, or similar body charged with oversight of the Action Plan development, implementation, and monitoring.

3. Safety Analysis

Safety analysis is analysis of existing conditions and historical trends that provides a baseline level of crashes involving fatalities and serious injuries across a jurisdiction, locality, Tribe, or region.

It includes an analysis of locations where there are crashes and the severity of the crashes, as well as contributing factors and crash types by relevant road users (e.g., motorists, pedestrians, transit users).

Analysis of systemic and specific safety needs is also performed, as needed (e.g., high-risk road features, specific safety needs of relevant road users, public health approaches, analysis of the built environment, demographics, and structural issues).

To the extent practical, the analysis should include all roadways within the jurisdiction, without regard for ownership. Based on the analysis performed, a geospatial identification of higher-risk locations is developed (a high-injury network or equivalent).

Comprehensive Safety Action Plans

Overview

In the Safe Streets and Roads for All (SS4A) grant program, comprehensive safety action plans (referred to as “**Action Plans**”) are the basic building block to significantly improve roadway safety.

Action Plans are comprehensive safety plans aimed at reducing and eliminating serious-injury and fatal crashes affecting all roadway users.

Action Plans use data analysis to characterize roadway safety problems and strengthen a community’s approach through projects and strategies that address the most significant safety risks.

The SS4A grant program is guided by the Safe System Approach, which involves a paradigm shift to improve safety culture, increase collaboration across all safety stakeholders, and refocus transportation system design and operation on anticipating human mistakes and lessening impact forces to reduce crash severity and save lives, and improve crash response to reduce secondary crashes, enhance survivability, and/or improve fatal and serious injury crash outcomes.

7 Components of an Action Plan

The goal of an Action Plan is to develop a holistic, well-defined strategy to prevent roadway fatalities and serious injuries in a locality, Tribal area, or region.

A successful Action Plan includes the following seven key components, which are described in more detail [at the end of this web page](#):

1. Leadership commitment and goal setting
2. Planning structure
3. Safety analysis
4. Engagement and collaboration
5. Policy and process changes
6. Strategy and project selections
7. Progress and transparency

4. Engagement and Collaboration

Engagement and collaboration involve robust engagement with the public and relevant stakeholders, including the private sector and community groups, that allows for both community representation and feedback. Information received from engagement and collaboration is analyzed and incorporated into the Action Plan.

Overlapping jurisdictions are included in the process. Plans and processes are coordinated and aligned with other governmental plans and planning processes to the extent practicable.

5. Policy and Process Changes

Policy and process changes include assessment of current policies, plans, guidelines, and/or standards (e.g., manuals) to identify opportunities to improve how processes prioritize transportation safety. The Action Plan discusses implementation through the adoption of revised or new policies, guidelines, and/or standards, as appropriate.

6. Strategy and Project Selections

Strategy and project selections include identification of a comprehensive set of projects and strategies—shaped by data, the best available evidence and noteworthy practices, and stakeholder input—that will address the safety problems described in the Action Plan. These strategies and countermeasures focus on a Safe System Approach and effective interventions and consider multidisciplinary activities.

To the extent practicable, data limitations are identified and mitigated.

Once identified, the projects and strategies are prioritized in a list that provides time ranges for when the strategies and countermeasures will be deployed (e.g., short-, mid-, and long-term timeframes). The list should include specific projects and strategies, or descriptions of programs of projects and strategies, and explains prioritization criteria used. The list should contain interventions focused on infrastructure, behavioral, and/or operational safety.

7. Progress and Transparency

Progress and transparency is a method to measure progress over time after an Action Plan is developed or updated, including outcome data. It's a means to ensure ongoing transparency is established with residents and other relevant stakeholders.

The approach must include, at a minimum, annual public and accessible reporting on progress toward reducing roadway fatalities and serious injuries and public posting of the Action Plan online.

About Us

Helpsy is a textile collection and sorting company on a mission to keep clothes out of the trash and in circulation.

Each year, over 85% of clothing ends up in the trash, more than 100 pounds per person in the U.S. alone, making up nearly 10% of our landfills. We exist to change that.

Helpsy is a Certified B Corporation and Public Benefit Corporation with a mission to keep clothes out of the trash, create honorable work, and operate a profitable, sustainable business. In partnership with over 1,500 communities, businesses, and nonprofits, we collect more than 100,000 pounds of clothing every day.

We give those items a second life through resale, reuse, and recycling, supplying environmentally responsible goods to thrift stores, resellers, and partners around the world. Every item that passes through our system is part of a larger effort to reduce waste and build a more sustainable fashion ecosystem.

But our impact goes beyond clothing.

We believe business can and should be a force for good. Helpsy is proud to be a second-chance employer and a company where every employee is a shareholder. We create honorable work, invest in our team, and partner with communities to make a real difference.

When you buy from Helpsy, you're not just sourcing inventory, you're helping keep textiles in use, supporting jobs, and reducing environmental impact.

Helpsy will Collect Your Community's Textile Waste... and Pay You for it.

Helpsy is the official textile recycling partner of 48 municipalities, including Boston, Cambridge, Stamford, and Toms River.

In 2023, we diverted 15,000 tons of textile waste, saving municipalities about \$1.3 million in tipping fees. In addition, we pay royalties to our partner municipalities and provide full transparency on what we collect from your community. As a municipal partner, you can choose to work with us by hosting clothing bins, adding textiles to your waste diversion events, and/or working with Helpsy to provide free curbside textile collection to your community.

Helpsy does not charge for any municipal services, we provide all equipment and are fully-insured. Our employee-owners earn living wages, we support community organizations, and we can provide free on-demand services for your community. Helpsy welcomes you to visit any of our facilities to see and discuss our work.

RE: Town Wide Overgrown Lawn Issues and Vacant House Property Registry

Dear Board Member:

I respectfully request the Town Board to consider adopting a resolution and establishing procedures to assist the Building Department in addressing maintenance issues associated with vacant and dormant properties, particularly those where owners fail to maintain lawns during the growing season.

My office continues to encounter numerous properties throughout the Town where repeated efforts to obtain compliance with lawn maintenance requirements have been unsuccessful. In many cases, these properties have been acquired by banks or mortgage companies, resulting in delayed responses to code enforcement concerns.

Examples:	11 Hidden Glen	398 Angola Road
	2 Iris Road	41 Roe Avenue
	2059 State Route 94	5 Smith Road

In addition, I think it would be appropriate to create a vacant house/property registry. Such a registry would provide current ownership and contact information, enabling the Building Department to address property maintenance issues more efficiently and facilitate timely communication with responsible parties.

Thank you for the consideration of this request.

Respectfully,

To: Supervisor Wojehowski & Town Board

From: Tom Gschwind, Highway Superintendent
Re: Request for "No Parking" Designation – Academy Avenue Extension

Mr. Wojehowski,

I am requesting that the Town Board consider designating Academy Avenue Extension as a "No Parking" street. Academy Avenue Extension is an older access road that measures approximately 12 feet in width at its widest points. Due to the narrow nature of the roadway, vehicles parked along the shoulders significantly restrict travel and, in many cases, make the road nearly impassable for normal traffic.

As this is a Town-maintained roadway, the Highway Department is responsible for snow plowing and year-round maintenance. In addition, residential garbage collection services are provided to homes located on this road. Parked vehicles create substantial operational and safety concerns for highway equipment, emergency access, sanitation vehicles, and residents attempting to travel the roadway.

Given the non-conforming width of the road and the recurring access issues caused by on-street parking, I believe a "No Parking" designation is necessary to maintain safe and reliable access for residents, Town services, and emergency responders.

I respectfully request that the Town Board review this matter and consider adopting a local law or resolution prohibiting on-street parking along Academy Avenue Extension.

Thanks,

Tom Gschwind

Highway Superintendent

Subject: Camera estimates

Caution: This is an external email and may be malicious. Please take care when clicking links or opening attachments.

Please see below estimates, broken down per site we talked about today. **One important note: the Meraki cellular gateway quoted on the icehouse part is on special promotion until May 14, if we move forward after that date, it may be more expensive.** Everything else isn't really time dependent for pricing.

The first four below utilize existing internet infrastructure to get back to the PD for recording. The ice house one is more expensive since we need to put in an internet infrastructure there to get the cameras back to the police department. The PD camera server is new and has enough capacity for this with no issue. Depending on which parts you want to move forward on we can discuss specifics with Tom for the install.

Tom should have enough wire in the outdoor cat5 box he has for the outdoor wiring runs. For the indoor ones we'd need to purchase a box of regular cable. The bulk of the labor is getting the wire around, my time through the IMA should be pretty minimal for just programming the cameras, point to point for little league, and actually installing the cameras, probably 6-8 hours including onsite time. Few other soft costs such as surge strips are not included, but nothing that should drastically change the overall price.

The two camera types mentioned are regular cameras and 180's. Regular cameras have some zoom capability, a single lens and cover more of a straight on path. The 180's, like on the pole in front of town hall, combine two lenses into one camera, and provide a 180' non zoomed view. Great for covering a wider area.

Basketball Court/Pickleball:

2 new 180' degree cameras on each side of pole between basketball and pickleball.

- 1 x Existing 180' already purchased: \$0 (move from original place to pole)
- 1 x 180' : \$265
- 1 x Mount: \$25
- 1 x Milestone Xpress License: \$79

We may need to modernize the link between the PD and historical building for cameras, if so that'd be about \$250 total added to this.

Total: \$369

Tennis Court:

1 x bullet camera mounted above electrical room on town hall side facing. Camera will have to be zoomed a bit so full courts may not be fully covered with one camera, but the bulk should be.

- 1 x bullet camera: \$229
- 1 x Mount: \$25
- 1 x Milestone Xpress License: \$79

Total: \$333

Munger Cottage:

2 new cameras, inside, facing each entrance.

- 2 x Regular Cameras: \$229 x2: \$458
- 2 x Mount: \$25 x 2: \$50
- 2 x Milestone Xpress License: \$79 x 2: \$158

Total: \$666

Little League:

Point to point to Munger Cottage with whatever selection of cameras Cornwall would want. Can adjust when ordering.

- 2 x Ubiquiti Point to Point Radios: \$240
- 2 x Antenna Mount: \$40
- 2 x 180' cameras (or whatever number or combo preferred): \$265 x 2: \$530
- 2 x Milestone Xpress Licenses: \$79x2: \$158
- 8 Port POE Switch: \$70
- Lockable 6u wall mount box: \$150

Total: \$1188

Ice House:

Provide a cellular gateway and VPN back to police network for recording. Mount lockable box inside in location with power. Cornwall would need to activate cell service on gateway. Mount box higher under pavilion and get electric into it.

- Meraki MG52 Cellular Gateway w/ 3 year license: \$1341.35
- 1 x Regular Camera for facing under pavilion: \$229
- 1 x 180' Camera on front of pavilion to cover walkway: \$265
- 2 x Mounts: \$25 x2: \$50
- 8 Port POE Switch: \$70
- Outdoor Lockable NEMA box: \$150

Total: \$2105.35

Caution: This is an external email and may be malicious. Please take care when clicking links or opening attachments.

Dear Supervisor Wojehowski,

Attached please find the 2027-2029 CDBG Urban County Participation Decision Letter for your immediate review and attention and our current cooperation agreement that we would like to auto-renew through your continued participation.

Over the past 10 years, \$770,500 of CDBG funds have been awarded to projects located in your municipality. In addition, your participation in the CDBG Urban County and HOME Consortium has enabled the County over the past 10 years to award \$15 million of CDBG throughout Orange County, \$7.5 million of Emergency Solutions Grants and HOME-ARP to prevent and address homelessness, and \$3 million in CDBG-CV to respond to COVID related needs such as food insecurity, legal services, and public health services. We have also awarded more than \$10 million of HOME funds over the past 10 years to develop affordable housing throughout the County.

We do hope your municipality continues to participate in the CDBG Urban County and the HOME Consortium.

Please call me at (845) 615-3819 or email nandersen@orangecountygov.com if you have any questions or are considering not participating in the Consortium as it will directly impact the other municipalities.

URBAN COUNTY PARTICIPATION DECISION LETTER TO ORANGE COUNTY MUNICIPALITIES FY 2027-2029

June 8, 2026

Town of Cornwall
Joshua Wojehowski, Supervisor
183 Main Street
Cornwall, NY 12518
supervisor@cornwallny.gov

Dear Supervisor Wojehowski:

In 1982, Orange County municipalities joined together to form the Urban County Consortium which is the mechanism by which participating municipalities receive Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) entitlement funds each year. Every three years, the consortium must be requalified in order to continue to receive CDBG, HOME, and ESG entitlement funds. By continuing to participate in the consortium, your community will continue to be eligible to receive funds under these programs in Federal Fiscal Years 2027, 2028, and 2029.

Orange County is seeking to renew its Urban County status under the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant, HOME Investment Partnerships, and Emergency Solutions Grant Programs (as applicable) for Federal Fiscal Years 2027, 2028, and 2029. Pursuant to HUD Notice CPD-26-08, issued May 15, 2026, the County must notify all units of general local government regarding their participation options for the upcoming three-year Urban County qualification period.

The County has enclosed our current Cooperation Agreement for your review. In compliance with HUD regulations and Notice CPD-26-08, Orange County is officially notifying your municipality of its options regarding participation in the Orange County Urban County Consortium and related CDBG, HOME, and ESG programs.

Towns and villages included in the Urban County Consortium will continue to be eligible to participate in the County's CDBG Program and will automatically participate in the HOME and ESG programs if the Urban County receives HOME and ESG funding respectively. While units of local government may only receive a HOME or ESG formula allocation through participation in the Urban County, participation in the Urban County does not preclude a municipality from applying for HOME or ESG funds through New York State if permitted by the State. Municipalities participating in the Urban County are not eligible to apply independently for New York State CDBG funding during the period of participation.

If you participate in the Orange County Urban County Program, your municipality will be eligible to apply for assistance through the CDBG program for public infrastructure, public facility, and other eligible activities that principally benefit low and moderate income persons, eliminate slum and blight conditions, or meet an urgent need as defined by HUD.

Your municipality's decision to continue participation, or elect exclusion, from the program will be effective for the entire three-year qualification period covering Federal Fiscal Years 2027, 2028, and 2029. The amount of CDBG and HOME funds awarded to Orange County is based in part on the population of participating municipalities.

If your municipality elects to participate in the Orange County Urban County Program, notify us in writing by **July 8, 2026**. The letter can be emailed to the Orange County Office of Community Development using my email: nandersen@orangecountygov.com. It should state:

The Town/Village of _____ elects to continue participation in the Orange County Urban County Consortium for the FY 2027-2029 qualification period pursuant to the existing Cooperation Agreement. If you do not respond to this letter, your municipality will automatically be included in the 2027-2029 Urban County, and the attached cooperation agreement will auto-renew.

Your municipality has the right to be excluded from the Urban County for Fiscal Years 2027-2029. If your municipality elects to terminate the agreement and not participate in the Orange County Urban County Program for 2027-2029, you must notify both the Orange County Office of Community Development and the U.S. Department of Housing and Urban Development New York Field Office with an official letter by **July 8, 2026**.

HUD's address is:

Celia Jones, Director, Community Planning and Development Division
U.S. Department of Housing & Urban Development, New York Field Office-Region II
Jacob J. Javits Federal Building

New York, NY 10278

Office of Community Development address is:

Nicole Andersen, Director
Orange County Office of Community Development
40 Matthews Street, Suite 307A
Goshen, NY 10940

If you have any questions, please call me at (845) 615-3819 or via email at nandersen@orangecountygov.com. The County of Orange and the Office of Community Development look forward to your continued participation in the County program.

Sincerely,

WHEREAS, applications for grants to finance community development and affordable housing programs under the Housing and Community Development Act of 1974, as amended, and the National Affordable Housing Act of 1990, as amended, and the McKinney-Vento Homeless Assistance Act of 1987, as amended (collectively, the "Acts"), and any "eligible activities" thereunder are not inconsistent with the statutes of the State of New York; and

WHEREAS, the Municipality and the County previously entered into a cooperation agreement covering the same subject matter which has been subsequently amended and automatically renewed by resolution and remained in full force and effect for all consecutive three-year urban county qualification periods including FYs 2021, 2022 and 2023; and

WHEREAS, the Municipality has determined that it is desirable and is in the public interest for the Municipality to be included in the urban county for the three-year qualification cycle of FYs 2024, 2025 and 2026; and

WHEREAS, the Municipality acknowledges the County's authority to undertake or assist in undertaking essential community development and housing assistance activities; and

WHEREAS, the County Executive has designated the Orange County Office of Community Development as the administrative agency for the CDBG, HOME and ESG Programs; and

WHEREAS, the Supervisor of the Municipality is authorized to execute this Agreement; and

WHEREAS, the County Executive, or his/her designee, is authorized to execute this Agreement; and

WHEREAS, the cooperation between the County and the Municipality is essential for the successful planning of the CDBG, HOME and ESG Programs under an urban county designation by HUD.

NOW THEREFORE, it is hereby agreed by the County and the participating Municipality as follows:

1. The purpose of this Agreement is to establish a legal mechanism through which the County may apply for, receive, and disburse federal funds available to eligible counties under the CDBG, HOME and ESG Programs, and to take such actions in the benefits of these programs. Federal funds received by the County shall be for such functions as urban renewal, water and sewer facilities, neighborhood facilities, public facilities, open space, housing activities, prevention of homelessness, and such other purposes as are authorized by the Acts.
2. In addition to such assurances and agreements as may have been made by previously executed cooperation agreements, the County and the Municipality agree to cooperate to undertake, or assist in undertaking, community renewal and lower-income housing assistance activities, specific urban renewal, and publicly assisted housing.
3. This Agreement shall supplement any previous cooperation agreements entered between the Parties for purposes of CDBG Urban County Qualification and shall replace and supersede any previously agreed upon provision should such a provision conflict or be inconsistent with this Agreement.
4. This Agreement shall be in effect for the three-year program period of Federal Fiscal Years 2024, 2025 and 2026, and until the CDBG, HOME and ESG funds and program income received (with respect to activities carried out during the three-year urban county qualification period) are expended and the funded activities completed.
5. The Parties understand and agree that neither the County nor the Municipality can terminate or withdraw from this Agreement while it remains in effect, except as allowed in legislation enacted by the US Congress for termination or withdrawal from the Urban County Program and as permitted by HUD. The Agreement shall remain in effect until expressly terminated by one of the

Parties hereto but said termination may only occur at the end of each three-year urban county requalification period.

6. The County shall, by the date specified in HUD's urban county qualification notice for the next qualifying period, notify the Municipality by letter of its right not to participate. This Agreement will be renewed automatically for participation in successive three-year urban county qualification periods unless the County or the Municipality elect not to participate in a new qualification period in three-year intervals, provided written notices are given in conformity with HUD requirements as set forth herein. Copies of the County's notification to the Municipality of its right not to participate in a new qualification period, as well as the notice of the Municipality's decision not to participate in the renewal shall be sent to the HUD Field Office by the dates specified in the urban county qualification schedule of the applicable notice.

7. Nothing contained in this Agreement shall deprive the Municipality of any powers of zoning, development control, or other lawful authority which it presently possesses, nor shall any participant be deprived of any State or Federal aid to which it might be entitled in its own right, except as herein provided.

8. The participating Municipality agrees not to apply for grants under the State CDBG Programs for the fiscal years during the period in which the Municipality participates in the urban county's CDBG Program. Nonetheless, while the Municipality may only receive a formula allocation under the HOME and ESG Programs as part of the urban county, it is not precluded by this Agreement from applying for HOME or ESG funds from the State of New York, provided the State allows it.

9. The County shall have the authority to carry out activities, which will be funded with annual CDBG, HOME and ESG Programs funds appropriated for FYs 2024-2026 and from any program income generated from the expenditure of such funds.

10. The eligible activities to be undertaken during the term of this Agreement will be chosen by the Municipality from those authorized by HUD Rules and Regulations governing the CDBG HOME and ESG Programs, and any regulations which may be applicable to future supplemental Federal Programs. The County shall have the final responsibility for selecting CDBG, HOME and ESG activities and annually filing grant application with HUD. In preparing such a grant application, the County shall give due consideration to the Municipality's analysis of community development needs and proposed activities.

11. The County will take full responsibility for and assume all obligations required of an applicant, including the analysis of needs, setting of objectives, development of community development and comprehensive housing affordability strategy plans, one-year community development program, assurances, and certifications, including HUD 424-B.

12. The County certifies that it is following an adopted Consolidated Plan as required by 24 CFR Part 91. The Parties agree to cooperate to fulfill housing goals established by the HUD approved Consolidated Plan for the period of this Agreement.

13. The County understands and agrees that it may not sell, trade, or otherwise transfer all or any portion of CDBG funds to a metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in

exchange for any funds, credits, or non-Federal considerations, but must use such funds for activities eligible under Title I of the Housing and Community Development Act of 1974, as amended.

14. The County and the Municipality shall take all actions necessary to assure compliance with the County's certification under Section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, that the grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964, and the implementing regulations at 24 CFR Part 1, and the Fair Housing Act, and the implementing regulations at 24 CFR Part 100, and will affirmatively further fair housing as required under 24 CFR 91.225(a) and Affirmatively Furthering Fair Housing Definitions and Certifications (86 FR 30779) codified or to be codified at 24 CFR 5.151 and 5.152. The Parties shall comply with Section 109 of Title I of the Housing and Community Development Act of 1974, and the implementing regulations at 24 CFR Part 6, which incorporates Section 504 of the Rehabilitation Act of 1973, and the implementing regulations at 24 CFR Part 8, Title II of the Americans with Disabilities Act of 1974, and the implementing regulations at 28 CFR Part 35, the Age Discrimination Act of 1975, and the implementing regulations at 24 CFR Part 146, and Section 3 of the Housing and Urban Development Act of 1968, and all other applicable laws and regulations. The Parties agree that urban county funding in no event will be used for activities in, or in support of, any cooperating unit of general local government that does not affirmatively further fair housing within its own jurisdiction or that impedes the County's actions to comply with the County's fair housing certification. Noncompliance with this provision is cause for sanctions and other remedial actions by HUD.

15. The Parties agree to adopt amendment(s) to this Agreement as may be required by HUD to meet any new Urban County Qualification requirement(s) for subsequent qualification cycles, when applicable. The County will notify the Municipality of its right to terminate its participation in the program based on the adoption of any such amendment. Failure by either Party to adopt any such amendment to the Agreement incorporating changes necessary to meet the requirements for cooperation agreements set forth in the HUD issued Urban County Qualification Notice applicable for subsequent three-year urban county qualification period, and to submit such amendment to HUD will void the automatic renewal of such qualification period.

16. The County and the Municipality each have adopted and are enforcing:

- a. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations.
- b. A policy of enforcing applicable State and local laws against physically barring entrance to, or exit from, a facility or location that is the subject of nonviolent civil rights demonstrations within its jurisdiction.

17. By executing this Cooperation Agreement, the Municipality understands, agrees and acknowledges that:

- a. The Municipality may not apply for grants from appropriations under the State CDBG Programs for fiscal years during the period in which it participates in the urban county's CDBG program.
- b. The Municipality may receive a formula allocation under the HOME Program and BSG Program only through the urban county. Thus, even if the urban county does not receive a HOME formula allocation, the participating unit of local government cannot

form a HOME consortium with other local governments. This, nonetheless, does not preclude the Municipality participating with the urban county from applying to the State for HOME and ESG funds if the State allows.

- c. The Municipality may not sell, trade, or otherwise transfer all or any portion of CDBG funds to a metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in exchange for any funds, credits, or non-Federal considerations, but must use such funds for activities eligible under Title I of the Housing and Community Development Act of 1974, as amended.
- d. Pursuant to 24 CFR 570.501(b), the Municipality is subject to the same requirements applicable to subrecipients, including the requirement of a written agreement as described in 24 CFR 570.503.
- e. The Municipality must inform the County, through periodic reports requested by the County, of any income generated by the expenditure of CDBG and HOME funds received. All program income, including income received subsequent to project close-out or change in status of the Municipality must be paid to the County within ninety (90) days after the expiration of the term of this Agreement unless, it is agreed by the Parties in writing that the Municipality may retain the income. All program income must be used exclusively for eligible activities as determined by the County and in accordance with CDBG and/or HOME Program requirements, as applicable.
- f. The Municipality shall keep and maintain appropriate records on the use of program income as required by the County as the county has the responsibility of monitoring and reporting income to HUD.
- g. The Municipality agrees that real property acquired or improved in whole or in part, using CDBG funds, will be used in accordance with the standards set forth in 24 CFR 570.505. The Municipality shall reimburse the County an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations. Program income generated from disposition or transfer of property prior to or subsequent to close-out or a change in status of the Municipality, or termination of this Agreement must be paid to the County unless otherwise agreed upon in writing.
- h. Any proposed modification or change of use of any real property acquired or improved in whole or in part by the Municipality using CDBG funds (from the use planned at the time of the acquisition or improvement), including disposition, must be reported to the County. The County may approve the proposed modification or change of use. The Municipality shall not implement the modification or change in use without the County's approval.
- i. The Municipality may not terminate or withdraw from this Agreement, except if the County fails to requalify as an urban county, while it remains in effect until the CDBG, HOME, and where applicable ESG funds and income received with respect to the three-year qualification period are expended and the funded activities completed.
- j. The Municipality may not receive urban county funding for activities in, or in support of, any cooperating unit of general local government that does not affirmatively further fair housing within its own jurisdiction or that impedes the County's actions to comply with its fair housing certification.
- k. The Municipality shall comply with the requirements, laws and policies of the CDBG, HOME and ESG Programs, and all applicable laws, ordinances, and codes of the State

and local governments, and shall commit no trespass on any private property in performing any of the work embraced by this Agreement.

18. The Municipality shall not discriminate against any of its employees or applicants for employment because of race, color, religion, sex, or national origin, disability or familial status. The Municipality shall take affirmative action to ensure that applicants for employment and employees are treated without regard to their race, color, religion, sex, national origin, disability or familial status.
